HEPPA FILTER KIT FOR XLERATOR HAND DRYER

Features & Specifications

XLERATOR offers the only certified HEPA filtration system proven to remove 99.97% of potentially present bacteria and particulates from the air in the room, and the only one with a washable pre-filter for reliable performance and extended filter life. XLERATOR with HEPA settles the debate about hand dryer hygiene by delivering clean, filtered, purified air as only XLERATOR can – fast and efficiently. The HEPA filtration system is now available as an optional XLERATOR feature, or can easily be retrofitted into existing units.
