

Subject: RL 606 Guarantee

The Reeflite RL 606 consist of a white powder coated 0.6mm mild steel body, with an IP23 internal gear compartment, an open lamp compartment and external mounting ears. The control gear is fitted on a removable, electroplated gear plate and secured by two gutter bolts. The luminaire is fitted with a 99.85% pure super deep anodized aluminium reflector that is shaped symmetrically. An optional glass cover is available that provides the lamp compartment with an ingress protection of IP 54.

The fittings are guaranteed for 1 (one) year in normal atmospheric conditions. The control gear is high quality and these components are guaranteed for one year providing that they were not damaged due to the ingress of moisture or incorrectly connected.

The luminaires are approved by the SABS and compiles with the SABS IEC 60598 safety specification.
